Product Description

Bad Boy 40 Series 4025 Compact Tractor w/ Loader

Never back down from a challenge because this tractor is as tough as they come. The 4025's frame is the biggest in its class and with more ground clearance, so it can breeze through chores usually reserved for much larger tractors. The 4025's three-range hydro-static transmission gives you flexible drive options. Go with low or medium when you're doing the work, and high during transport. The Bad Boy tough 3-point hitch is made to last longer and work harder. Built from heavy-gauge, welded and fabricated steel, it's more than ready to pull its weight around your property.
